

Abstract Submission Deadline: May 21, 2015 (11:59 p.m. ET)

www.icaac.org/icaac-icc

This year, American Society for Microbiology (ASM)'s Interscience Conference of Antimicrobial Agents and Chemotherapy (ICAAC) joins with International Society of Chemotherapy (ISC)'s International Congress of Chemotherapy and Infection (ICC) to bring you ICAAC/ICC 2015!

Offering unmatched opportunity for discussion, cross collaboration, and advancement, this joint meeting will bring together a rich history of debuting major advances in drug development and infectious disease research with a focus on examining antibiotic resistance, new antibiotic development and antibiotic stewardship.

This will be 2015's principal meeting for clinical microbiologists, infectious disease physicians, researchers, and pharmacists to attend to better improve the diagnosis, prevention, and treatment of infectious diseases around the globe.

The joint meeting expects to accept over 1,500 abstracts from a diverse list of topical and clinical categories. Travel grants and awards are available to support over 125 attendees with over \$175,000 in financial assistance. To qualify for many of the awards and travel grants, you must be the presenting author of an accepted abstract.

Submit yours today to be considered!
