(European Federation of Internal Medicine EFIM)

[www.efim2013.org](http://www.efim2013.org)

2-5 October, 2013 | Prague, Czech Republic

**Be as complex as possible for the best care provided to your patients!**

## Editorial

Dear Colleagues,

Let me express my thanks for your interest in the **European Congress of Internal Medicine 2013 in Prague**.

I thought you would appreciate some new information regarding the Congress.

If you have any questions do not hesitate to contact our secretariat.

Yours faithfully,

**Richard Ceska**

President of the Czech Society of Internal Medicine  
Congress President EFIM 2013

## Free registration Winners

The European Congress of Internal Medicine has already been promoted at numerous events around the world and has attracted hundreds of participants. Based on your responses during all the congresses we have attended, we look forward to seeing you at the Congress in our beautiful city in October.

Participants were eligible to win free registration to the EFIM 2013 Congress in Prague by filling out their EFIM lottery tickets. As promised, all the winners were drawn and their names can be seen on our congress website, or, you can check the drawing of the winners on our Facebook page.

## Good to know

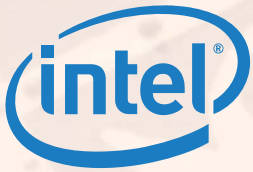

### Official language

The official language of the European Congress of Internal Medicine is English. All sessions and lectures will be given in English.

### CME Accreditation

12<sup>th</sup> European Congress on Internal Medicine (EFIM 2013) is applying for the European CME Accreditation.

## Technological Partner of the Conference

EFIM 2013 has recently agreed on collaboration with the technological partner of the conference, a leading IT corporation Intel. This partnership is connected with Intel Corporation's vision to deliver innovative computing technologies

and solutions that will improve healthcare quality and access while reducing unnecessary costs for billions of people worldwide. Intel aims to underline for Tomorrow's healthcare challenges demand innovation across the spectrum of care. Intel teams work with governments, healthcare organizations, and technology innovators worldwide to build tomorrow's health IT tools and services. At the world conference Intel will share experience with technologies and solutions to power emerging collaborative care models including new models for coordinated primary care. Models which meet the global challenge of improving healthcare quality and access for growing and aging populations, while managing healthcare costs.

**2 weeks left to submit your abstract! Have you submitted your abstract? If not, there is still time to share your research. Abstract submission deadline is on Friday May 31, 2013.**

Submit your abstract [here](#)

## Follow us on

## Prague

Prague, the Capital of the Czech Republic, is spectacularly located on the Vltava River and is commonly referred to as the Heart of Europe. It has also been called the City of a Hundred Spires.

According to EUROSTAT, Prague is the 6<sup>th</sup> richest region in the EU surpassed only by The City of London, Luxembourg, Brussels, Groningen (the Netherlands) and Hamburg.

Prague is a multi-cultural city featuring a vibrant arts scene with wonderful galleries and museums throughout the city. The historical parts of the city are incredibly well-preserved and a highlight of any trip to Europe. Prague is proud to be included on UNESCO's list of protected cities and is truly one of the world's most magical cities.
